**Description:** The tour starts at the Pass Thurn viewing platform, where you can already enjoy views of the Hohe Tauern. After picking up your snowshoes, the tour to Wasenmoos begins. After a gentle ascent, views will open up deep into the national park. Crossing snow-covered meadows and fields, the snowshoe hike will repeatedly reach points with views of the mountains. The wintry moor and neighbouring forest also offer a glimpse of wildlife and their tracks away from the panoramic views. We will return to the starting point along winter paths. You will never lose sight of the Hohe Tauern mountains!

### Educational content:

- Special features of the Wasenmoos and its role as a winter habitat
- Tracks in the snow: signs of wildlife such as deer, hare, and fox
- Survival strategies of animals in winter: foraging, seeking shelter, and conserving energy
- Winter weather conditions and climate, and their effects on wildlife and the landscape
- Panoramic view of the Hohe Tauern: geology and landscape history
- Information on the special features of the Hohe Tauern National Park protected area
